

# PEDIASURE® PLUS (WITH FIBRE)

## COMPLETE, BALANCED NUTRITION FOR CHILDREN 1 TO 10 YEARS OF AGE

### USAGE

Complete, high-energy nutrition with fibre for children 1 to 10 years of age. High nutrient density provides more calories in less volume. Also provides the benefits of fibre. Ideal for children that need a higher caloric intake.

- For supplemental or sole-source nutrition
- For oral or tube feeding

### FEATURES

- Complete, balanced nutrition.
- High-calorie enteral/oral formula.
- High-nutrient density (1.5 Cal/mL) to provide more calories in less volume.
- Provides 1.8 g total dietary fibre and 0.82 g fructooligosaccharides (FOS) per 235 mL.
- Delicious vanilla flavour.
- Contains FOS-indigestible carbohydrates, fermented to SCFAs, which help create an unfavourable environment to “harmful” bacteria, such as *C. difficile*.<sup>†</sup> FOS stimulate water and electrolyte uptake in the colon, two important factors in the management of diarrhea. FOS are also prebiotics that stimulate the growth of beneficial GI bacteria (e.g., bifidobacteria). To learn more about FOS, see product guide introduction
