

JEVITY® 1.2 CAL

HIGH-PROTEIN NUTRITION WITH FOS AND FIBRE BLEND

USAGE

JEVITY® 1.2 CAL is a calorically dense high-protein, fibre-fortified liquid formula providing complete, balanced nutrition for people who may benefit from a moderate increase in caloric and protein density. **JEVITY® 1.2 CAL** contains a blend of soluble and insoluble fibre to help maintain normal bowel function, and fructooligosaccharides (FOS).

- For people requiring acute care or chronic tube feeding
- For supplemental or as a sole source of nutrition
- For people intolerant to low-residue tube feeding

FEATURES

- Concentrated calories (1.2 Cal/mL) and high protein (18.5% of Cal) to help tube-fed patients gain and maintain healthy weight. Protein is needed for lean body tissue maintenance and repair
- 10 g/L of a soluble and insoluble fibre blend and 8/L g of fructooligosaccharides (FOS)
- Contains FOS-indigestible carbohydrates, fermented to SCFAs, which help create an unfavourable environment to “harmful” bacteria, such as *C. difficile*.† FOS stimulate water and electrolyte uptake in the colon, two important factors in the management of diarrhea. FOS are prebiotics that stimulate the growth of beneficial GI bacteria (e.g., bifidobacteria). To learn more about FOS, see product guide introduction
- 48-hour hangtime for **JEVITY® 1.2 CAL** in Ross Ready-to-Hang® containers
- Fortified with L-carnitine, taurine, β-carotene and ultra-trace minerals
- For tube feeding
- Lactose- and gluten-free
