JEVITY® 1.5 CAL is now covered

Now listed on the RGAM,*
JEVITY 1.5 CAL has exception drug status, which is covered for reimbursement.

High-calorie formula with fibre & prebiotics

The prebiotics in Jevity 1.5 Cal are short-chain FOS (fructo-oligosaccharides), added at levels shown to support the growth of bifidobacteria in the colon,[1-3] to help create an environment unfavourable to "harmful" bacteria, such as *C. difficile*.[3,4†]

- Tube or oral-feeding

† in vitro data

For use under medical supervision

* Régime général d'assurance médicaments

Abbott
A Promise for Life

JEVITY 1.5 CAL is now covered

Reimbursable indications for Jevity 1.5 CAL include:[5]

- Enteral feeding
- Total liquid nutrition for those requiring nutritional formulas due to oesophageal dysfunction, dysphagia, digestive problems, or malabsorption
- For children suffering from malnutrition, malabsorption, or failure-to-thrive, due to a medical condition
- For people with cystic fibrosis

Jevity 1.5 CAL

Nutrition Information	235 mL	1000 mL	1500 mL
Calories	355	1500	2250
