Companion™ ClearStar™ Pump Sets

CLOSED SYSTEM

Formula is prefilled into feeding container. Reduced handling decreases risk of microbial contamination. Ross Ready-to-Hang® containers can hang up to 48 hours when one feeding set and clean techniques are used.

PUMP SETS

Pump set with piercing pin

Product Code **88-030** Units/Case **30**

Ross Ready-to-Hang® containers

OPEN SYSTEM

Formula needs to be decanted from the original container into the feeding container

- Ready-to-use formula can hang up to 8-12 hours
- Reconstituted formula or formula with additives such as modular components can hang up to 4 hours
- All pump sets for an open system are to be changed within 24 hours
