† In infants with at least one first-degree relative with documented allergic disease.

Abbott Nutrition also has a line of metabolic formulas.

Legend: Pwd = Powder; Conc = Concentrate; RTU = Ready to use; HFS = Available in ready to use for Hospital Feeding Systems; FOS = Fructooligosaccharides; ARA = Arachidonic acid; DHA = Docosahexaenoic acid; RSL = Renal solute load.

All Abbott Nutrition pediatric products are gluten-free, low residue (with the exception of PediaSure® with Fibre and PediaSure® Plus with Fibre), and Kosher (with the exception of Alimentum® and Alimentum® Advance®).

Nutrient information is based on powdered product prepared to standard dilution. There may be slight differences for other formats. Refer to the product label for the exact information.
